ABOUT US

Founded in January 2013, MyKronoz is a Swiss company headquartered in Geneva that designs and develops IoT devices to expand the connected experience of the smart generation. MyKronoz offers a full ecosystem of affordable, stylish and complementary products, all compatible with iOS and Android through its companion app, created to improve everyday life.

WELL LIVING

WELL BEING

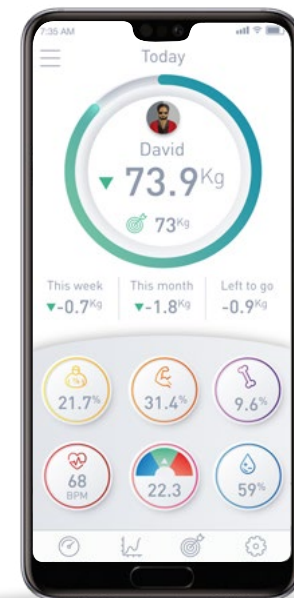

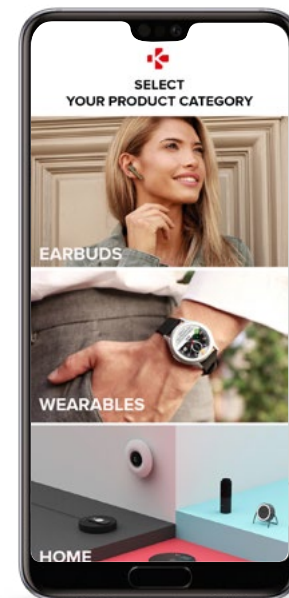

MYKRONOZ APP

THE HEART OF THE MYKRONOZ ECOSYSTEM

Offering similar set of features and user experience to both operating systems, MyKronoz app is the perfect companion regardless of your phone preference. Discover intuitive interfaces and access a multitude of features that will enhance your experience.

MyKronoz App is compatible with iOS and Android devices.

MyPure

MyClock

Design by Lexon Studio. With nearly 30 years of existence, more than 200 design awards, collaboration with some of the most renowned designers, a retail presence in more than 90 countries, Lexon has truly established itself as a worldly-known French design brand. Today, Lexon is bringing its expertise in creating collection of lifestyle and timeless products to fuel MyKronoz expansion into the realm of IoT.

MyStation

6 UV-C TUBES FOR HIGH & QUICK EFFICIENCY DISINFECTION AND 3 QI FOR SIMULTANEOUS WIRELESS CHARGING WITH STEREO SPEAKER

Designed for today's home and office space, MyStation is a 3-in-1 hybrid station that combines a powerful UV-C sanitizer, a multi-device wireless charger and a 360° Bluetooth speaker. Clean your daily essentials, power up your mobile devices and listen to your favourite sound, all at once.

UV-C to kill germs & virus in 5 minutes

MyExperience

We are the premier Swiss watch

brand of the smart generation.

Free. Hungry. Creative.

We beat the tempo of a new era.

Social. Connected. Positive.

We measure a new time. Immediate.

Accelerated. Simultaneous.

We are heirs to a tradition,
yet connected to the present.

We have no borders.

We have no limits. We are swiss,
and the world is ours.

We are more than a wearable brand,
more than an IoT brand.

We are hybrid by nature.
